Step back to a time when giant goannas and marsupial lions stalked the Australian bush. Imagine herds of two-tonne *Diprotodon* roaming the plains, and flocks of flightless ducks bigger than emus striding across the shallow inland sea.

*Prehistoric Giants*, the second in the Museum Victoria Nature series, is a guide to the Australian megafauna of the Pleistocene--a time when humans shared the land with giants. Richly illustrated and brought to life by the art of Peter Trusler and others, *Prehistoric Giants* will reveal an Australia you've never seen before.
