Project Eve Lauren Bach

Everything Has A Price. . .

To dig up the truth behind the mysterious death of a senator's daughter, private investigator Rachel Anderson is going back to school. Passing herself off as a transfer student at the small, prestigious college the troubled girl last attended--funded by the powerful Shepherd's Cross Ministry--Rachel finds the secluded campus almost too idyllic, and the girls invited to participate in the "Eve's Circle" honors group too perfect. Too feminine. Too obedient. Not only obedient--completely submissive. . .

. . .Especially Perfection

Before long she realizes that some of the female students recruited to Shepherd's Cross have been abducted and brainwashed, not as the perfect wives Rachel imagined, but the perfect partners for men whose appetites are dark and sexual. But putting an end to the shocking operation requires more than just a cover--and it means trusting the brooding Elijah Trent, a CIA operative also working the campus from the inside. Together, they plan to expose the ministry's unspeakable secret, a crime which reaches outside U.S. borders and into the realm of pure evil. . .

From reader reviews:

Frances Heath:

What do you think of book? It is just for students as they are still students or the idea for all people in the world, what best subject for that? Only you can be answered for that concern above. Every person has several personality and hobby per other. Don't to be compelled someone or something that they don't desire do that. You must know how great and also important the book Project Eve. All type of book can you see on many resources. You can look for the internet solutions or other social media.

Clementine Frazier:

In this period of time globalization it is important to someone to acquire information. The information will make you to definitely understand the condition of the world. The health of the world makes the information quicker to share. You can find a lot of references to get information example: internet, paper, book, and soon. You can see that now, a lot of publisher that print many kinds of book. The particular book that recommended for you is Project Eve this reserve consist a lot of the information of the condition of this world now. That book was represented how can the world has grown up. The language styles that writer use to explain it is easy to understand. The particular writer made some investigation when he makes this book. That is why this book suitable all of you.

Violet Jarrell:

Many people spending their time period by playing outside along with friends, fun activity together with family or just watching TV the whole day. You can have new activity to enjoy your whole day by examining a book. Ugh, ya think reading a book can definitely hard because you have to use the book everywhere? It all right you can have the e-book, taking everywhere you want in your Touch screen phone. Like Project Eve which is having the e-book version. So , try out this book? Let's view.

Bonnie Pace:

A lot of guide has printed but it differs. You can get it by world wide web on social media. You can choose the top book for you, science, witty, novel, or whatever by searching from it. It is identified as of book Project Eve. You can add your knowledge by it. Without leaving behind the printed book, it could possibly add your knowledge and make you actually happier to read. It is most crucial that, you must aware about book. It can bring you from one destination for a other place.
