Learning LaTeX David F. Griffiths, Desmond J. Higham

This short, well-written book covers the material essential for learning LATEX without any unnecessary detail. It discusses incisive examples that teach LATEX in a powerful yet abbreviated fashion, including the following crucial features: numerous examples of widely used mathematical expressions; complete documents illustrating the creation of articles, reports, and overhead projector slides; troubleshooting tips to help you pinpoint an error; details of how to set up a bibliography and an index; information about LATEX resources available on the Internet. LATEX has become an extremely popular typesetting system and is widely used throughout the sciences. Students may use it to typeset reports and theses (particularly graduate students in any mathematics or computer science discipline). The authors cover LATEX 2e, the latest standard version at the time of publication. An appendix discusses the differences between 2e and the older version, 2.09.

From reader reviews:

Fred Green:

Here thing why this Learning LaTeX are different and reliable to be yours. First of all studying a book is good but it depends in the content of the usb ports which is the content is as delightful as food or not. Learning LaTeX giving you information deeper and in different ways, you can find any e-book out there but there is no guide that similar with Learning LaTeX. It gives you thrill studying journey, its open up your own eyes about the thing that will happened in the world which is maybe can be happened around you. You can bring everywhere like in park your car, café, or even in your approach home by train. For anyone who is having difficulties in bringing the published book maybe the form of Learning LaTeX in e-book can be your option.

Brandon Phelan:

This book untitled Learning LaTeX to be one of several books which best seller in this year, that's because when you read this reserve you can get a lot of benefit onto it. You will easily to buy that book in the book retail outlet or you can order it through online. The publisher with this book sells the e-book too. It makes you quicker to read this book, as you can read this book in your Smartphone. So there is no reason for your requirements to past this guide from your list.

Charles Stubblefield:

Do you have something that that suits you such as book? The reserve lovers usually prefer to pick book like comic, short story and the biggest you are novel. Now, why not seeking Learning LaTeX that give your fun preference will be satisfied through reading this book. Reading addiction all over the world can be said as the means for people to know world a great deal better then how they react toward the world. It can't be mentioned constantly that reading behavior only for the geeky man but for all of you who wants to become success person. So , for all you who want to start studying as your good habit, you may pick Learning LaTeX become your starter.

Laura Burnham:

This Learning LaTeX is brand new way for you who has curiosity to look for some information as it relief your hunger of information. Getting deeper you onto it getting knowledge more you know or else you who still having small amount of digest in reading this Learning LaTeX can be the light food for yourself because the information inside that book is easy to get by simply anyone. These books acquire itself in the form which is reachable by anyone, yep I mean in the e-book contact form. People who think that in reserve form make them feel sleepy even dizzy this e-book is the answer. So there is not any in reading a book especially this one. You can find actually looking for. It should be here for you actually. So , don't miss it! Just read this e-book kind for your better life and also knowledge.
