Programming ASP.NET MVC 4: Developing Real-World Web Applications with ASP.NET MVC Jess Chadwick, Todd Snyder, Hrusikesh Panda

Get up and running with ASP.NET MVC 4, and learn how to build modern server-side web applications. This guide helps you understand how the framework performs, and shows you how to use various features to solve many real-world development scenarios you're likely to face. In the process, you'll learn how to work with HTML, JavaScript, the Entity Framework, and other web technologies.

You'll start by learning core concepts such as the Model-View-Controller architectural pattern, and then work your way toward advanced topics. The authors demonstrate ASP.NET MVC 4 best practices and techniques by building a sample online auction site ("EBuy") throughout the book.

- Learn the similarities between ASP.NET MVC 4 and Web Forms
- Use Entity Framework to create and maintain an application database
- Create rich web applications, using jQuery for client-side development
- Incorporate AJAX techniques into your web applications
- Learn how to create and expose ASP.NET Web API services
- Deliver a rich and consistent experience for mobile devices
- Apply techniques for error handling, automated testing, and build automation
- Use various options to deploy your ASP.NET MVC 4 application

From reader reviews:

Clarice Johnson:

Do you one of people who can't read pleasant if the sentence chained within the straightway, hold on guys this particular aren't like that. This Programming ASP.NET MVC 4: Developing Real-World Web Applications with ASP.NET MVC book is readable by means of you who hate those perfect word style. You will find the information here are arrange for enjoyable looking at experience without leaving even decrease the knowledge that want to offer to you. The writer associated with Programming ASP.NET MVC 4: Developing Real-World Web Applications with ASP.NET MVC content conveys prospect easily to understand by many individuals. The printed and e-book are not different in the content but it just different in the form of it. So , do you continue to thinking Programming ASP.NET MVC 4: Developing Real-World Web Applications with ASP.NET MVC is not loveable to be your top checklist reading book?

Christen Arnold:

Reading a book tends to be new life style on this era globalization. With studying you can get a lot of information that may give you benefit in your life. Together with book everyone in this world can share their idea. Textbooks can also inspire a lot of people. A lot of author can inspire their very own reader with their story or perhaps their experience. Not only the storyplot that share in the guides. But also they write about the ability about something that you need instance. How to get the good score toefl, or how to teach your sons or daughters, there are many kinds of book that exist now. The authors on earth always try to improve their proficiency in writing, they also doing some investigation before they write with their book. One of them is this Programming ASP.NET MVC 4: Developing Real-World Web Applications with ASP.NET MVC.

Jose Laney:

Playing with family in a park, coming to see the marine world or hanging out with pals is thing that usually you could have done when you have spare time, after that why you don't try point that really opposite from that. One particular activity that make you not sensation tired but still relaxing, trilling like on roller coaster you have been ride on and with addition associated with. Even you love Programming ASP.NET MVC 4: Developing Real-World Web Applications with ASP.NET MVC, it is possible to enjoy both. It is fine combination right, you still wish to miss it? What kind of hang-out type is it? Oh occur its mind hangout men. What? Still don't understand it, oh come on its called reading friends.

Ryan Dewitt:

Are you kind of occupied person, only have 10 as well as 15 minute in your moment to upgrading your mind ability or thinking skill even analytical thinking? Then you are having problem with the book in comparison with can satisfy your short space of time to read it because this all time you only find reserve that need more time to be learn. Programming ASP.NET MVC 4: Developing Real-World Web Applications with ASP.NET

MVC can be your answer given it can be read by you actually who have those short free time problems.
