**A Specially Tender Piece of Eternity: Virginia Woolf and the Experience of Time** Teresa Prudente  
*A Specially Tender Piece of Eternity* examines Virginia Woolf's treatment of time both as a theme of her works and as an essential element in her experimental narrative techniques. It starts from the individuation and analysis of Woolf's key concepts of moments of being, ecstasy and rapture and builds around these ideas an epistemological inquiry into her treatment of what Paul Ricoeur has defined as a-linear time. By drawing on both stylistic analysis and philosophy, Teresa Prudente investigates the experience of a-linear time in Woolf both as the possibility for the subject to enter a timeless temporal dimension, in *Orlando* and *To the Lighthouse*, and as a tragic alteration and separation from reality, in *Mrs. Dalloway*.

Through the accurate examination of the meta-narrative elements in Woolf's novels, and of her original employment of interior monologue and free indirect speech, Prudente closely relates these two states of extra-temporality to the process of artistic creation. In this sense, Woolf's experiments in narrative are redefined and reassessed in the light of the writer's concern to challenge ineffability in re-creating moments of ecstasy.
