The Digital Dividend of Terrestrial Broadcasting Roland Beutler

The “digital revolution” of the last two decades has pervaded innumerable aspects of our daily lives and changed our planet irreversibly. The shift from analog to digital broadcasting has facilitated a seemingly infinite variety of new applications—audience interactivity being but one example. The greater efficiency and compression of digital media have endowed broadcasters with a “digital dividend” of spare transmission capacity over and above the requirements of terrestrial broadcasting. The question is, who will use it, and how? Comparing the European experience with that of broadcasters elsewhere in the world, the author sketches the current status of international frequency management, quantifies the value of the “dividend” itself, analyzes the details of the analog-to-digital switchovers already completed, and posits what the future holds for the sector. As we grapple with new devices, inconceivable a mere generation ago, that allow us to access digital media instantly, anywhere and at any time of day, this book is a potent reminder that what we have witnessed so far may be just the first wavering steps along a road whose destination we can only guess at.

From reader reviews:

Jonathan Head:

Information is provisions for anyone to get better life, information these days can get by anyone in everywhere. The information can be a understanding or any news even an issue. What people must be consider when those information which is from the former life are challenging be find than now is taking seriously which one is acceptable to believe or which one the particular resource are convinced. If you obtain the unstable resource then you obtain it as your main information you will have huge disadvantage for you. All those possibilities will not happen with you if you take The Digital Dividend of Terrestrial Broadcasting as your daily resource information.

Jacqueline Bull:

Do you one of the book lovers? If yes, do you ever feeling doubt when you find yourself in the book store? Aim to pick one book that you just dont know the inside because don't ascertain book by its include may doesn't work at this point is difficult job because you are scared that the inside maybe not while fantastic as in the outside seem likes. Maybe you answer could be The Digital Dividend of Terrestrial Broadcasting why because the great cover that make you consider regarding the content will not disappoint you actually. The inside or content is fantastic as the outside or perhaps cover. Your reading 6th sense will directly guide you to pick up this book.

Christopher Jaeger:

This The Digital Dividend of Terrestrial Broadcasting is great book for you because the content which is full of information for you who have always deal with world and have to make decision every minute. This book reveal it data accurately using great plan word or we can say no rambling sentences inside. So if you are read this hurriedly you can have whole facts in it. Doesn't mean it only will give you straight forward sentences but challenging core information with attractive delivering sentences. Having The Digital Dividend of Terrestrial Broadcasting in your hand like getting the world in your arm, info in it is not ridiculous one particular. We can say that no e-book that offer you world inside ten or fifteen minute right but this guide already do that. So , this can be good reading book. Hey Mr. and Mrs. busy do you still doubt which?

Kevin Vickers:

Reading a book make you to get more knowledge from this. You can take knowledge and information from a book. Book is created or printed or highlighted from each source in which filled update of news. With this modern era like currently, many ways to get information are available for a person. From media social such as newspaper, magazines, science e-book, encyclopedia, reference book, fresh and comic. You can add your understanding by that book. Isn't it time to spend your spare time to spread out your book? Or just searching for the The Digital Dividend of Terrestrial Broadcasting when you needed it?
