The Evolution of European Identities: Biographical Approaches (Identities and Modernities in Europe) Robert Miller

The 'European project' is in a state of perpetual crisis in which the root cause is a lack of identification by ordinary citizens with Europe and European institutions. *The Evolution of European Identities* employs state of the art analysis of in-depth interviews by renowned practitioners to give a unique 'bottoms up' perspective on the development (or its lack) of a sense of 'European mental space'. Linking conceptual findings with case studies, the book provides unique insights into groups that have been especially sensitized by their life experiences to question what it means to be European in the twenty-first century. The groups explored in this book include: adults who experienced European education exchanges when young; transnational workers; civil society organization activists; persons involved in cross-border intimate relationships; farmers who are subject to European markets, regulations and subsidies; and migrants into 'fortress Europe'.
