Brian Greene

The Hidden Reality: Parallel Universes and the Deep Laws of the Cosmos Brian Greene

From the best-selling author of *The Elegant Universe* and *The Fabric of the Cosmos* comes his most expansive and accessible book to date—a book that takes on the grandest question: Is ours the only universe?

There was a time when “universe” meant all there is. Everything. Yet, in recent years discoveries in physics and cosmology have led a number of scientists to conclude that our universe may be one among many. With crystal-clear prose and inspired use of analogy, Brian Greene shows how a range of different “multiverse” proposals emerges from theories developed to explain the most refined observations of both subatomic particles and the dark depths of space: a multiverse in which you have an infinite number of doppelgängers, each reading this sentence in a distant universe; a multiverse comprising a vast ocean of bubble universes, of which ours is but one; a multiverse that endlessly cycles through time, or one that might be hovering millimeters away yet remains invisible; another in which every possibility allowed by quantum physics is brought to life. Or, perhaps strangest of all, a multiverse made purely of math.

Greene, one of our foremost physicists and science writers, takes us on a captivating exploration of these parallel worlds and reveals how much of reality’s true nature may be deeply hidden within them. And, with his unrivaled ability to make the most challenging of material accessible and entertaining, Greene tackles the core question: How can fundamental science progress if great swaths of reality lie beyond our reach?

Sparked by Greene’s trademark wit and precision, *The Hidden Reality* is at once a far-reaching survey of cutting-edge physics and a remarkable journey to the very edge of reality—a journey grounded firmly in science and limited only by our imagination.

From the Hardcover edition.

From reader reviews:

Lee Rutledge:

The publication untitled The Hidden Reality: Parallel Universes and the Deep Laws of the Cosmos is the e-book that recommended to you to read. You can see the quality of the publication content that will be shown to you actually. The language that creator use to explained their ideas are easily to understand. The writer was did a lot of exploration when write the book, hence the information that they share for you is absolutely accurate. You also could get the e-book of The Hidden Reality: Parallel Universes and the Deep Laws of the Cosmos from the publisher to make you much more enjoy free time.

Rod Doughty:

Spent a free time to be fun activity to perform! A lot of people spent their spare time with their family, or their own friends. Usually they accomplishing activity like watching television, planning to beach, or picnic within the park. They actually doing same every week. Do you feel it? Will you something different to fill your own free time/ holiday? Might be reading a book might be option to fill your no cost time/ holiday. The first thing that you will ask may be what kinds of reserve that you should read. If you want to try look for book, may be the reserve untitled The Hidden Reality: Parallel Universes and the Deep Laws of the Cosmos can be excellent book to read. May be it can be best activity to you.

Sandra Castillo:

Beside this kind of The Hidden Reality: Parallel Universes and the Deep Laws of the Cosmos in your phone, it might give you a way to get more close to the new knowledge or facts. The information and the knowledge you might got here is fresh in the oven so don't end up being worry if you feel like an previous people live in narrow commune. It is good thing to have The Hidden Reality: Parallel Universes and the Deep Laws of the Cosmos because this book offers to you readable information. Do you occasionally have book but you would not get what it's interesting features of. Oh come on, that wil happen if you have this in the hand. The Enjoyable option here cannot be questionable, including treasuring beautiful island. So do you still want to miss the item? Find this book along with read it from right now!

Antonio Nelson:

Many people said that they feel fed up when they reading a guide. They are directly felt the idea when they get a half elements of the book. You can choose often the book The Hidden Reality: Parallel Universes and the Deep Laws of the Cosmos to make your personal reading is interesting. Your own personal skill of reading talent is developing when you like reading. Try to choose basic book to make you enjoy to see it and mingle the idea about book and reading through especially. It is to be initial opinion for you to like to open a book and go through it. Beside that the reserve The Hidden Reality: Parallel Universes and the Deep Laws of the Cosmos can be your brand new friend when you're truly feel alone and confuse in doing what must you're doing of that time.
