## Reluctant Partners? Non-Governmental Organizations, the State and Sustainable Agricultural Development (Non-Governmental Organizations series)

*Reluctant Partners?* combines comprehensive empirical insights into NGOs' work in agriculture with wider considerations of their relations with the State and their contribution to democratic pluralism. This overview volume for the *Non-Governmental Organizations* series contextualizes and synthesizes the case study material in the three regional volumes on Africa, Asia and Latin America, where over sixty specially commissioned case studies of farmer-participatory approaches to agricultural innovation are presented. Specific questions are raised. How good/bad are NGOs at promoting technological innovation and addressing constraints to change in peasant culture? How effective are NGOs at strengthening local organizations? How do/will donor pressures influence NGOs and their links to the State?
