## **Il Barca (Italian Edition)** Sandro Modeo

La notte del 28 maggio 2011, a Wembley, il Barcellona ha vinto la Champions League battendo il Manchester United. Non è stato un semplice successo sportivo, ma l'irrompere di un'altra dimensione calcistica. Mai come quella notte, il Barcellona ha dimostrato di essere «més que un club». Ed è stato anche il punto culminante di una parabola dalle radici remote, quella del «calcio totale»: un universo vastissimo, che parte da Rinus Michels e Johan Crujff e passa per pionieri e variantisti, ortodossi ed eretici, tutti accomunati dalla tensione utopica verso un calcio costruttivo e offensivo. Per capire a fondo le caratteristiche di questa galassia, Modeo ci parla delle origini storiche e culturali del totaalvoetbal, ma spazia anche tra discipline in apparenza lontane da quelle sportive, dalla biologia evuzionistica alla fisica, approdando ad analogie sorprendenti tra il calcio e il comportamento di batteri e anticorpi, o tra la meccanica quantistica e l'avveniristico Barcellona di Guardiola.
