Food Security in Asia and the Pacific

This synthesis report is the result of close, collaborative research initiated by the Asian Development Bank in partnership with Foreign Affairs, Trade and Development Canada; the Asia-Pacific Economic Cooperation; and the Liu Institute for Global Issues at the University of British Columbia. Fourteen background papers were commissioned to investigate food security issues particularly pertinent for Asia and the Pacific. The report synthesizes and collates the primary findings from these papers to articulate key policy challenges and opportunities related to food security in the region.
