If Not Stocks, What? Gene Walden

Guidance for anxious stock market investors looking for alternative investments

The stock market's recent roller-coaster ride has many investors yearning for more stable, user-friendly investments, yet unable or unwilling to take the time to investigate the alternatives.

If Not Stocks, What? offers a detailed look at the many vehicles available to individual investors, reviewing what they are, how they work, what to look for when purchasing them, and hundreds of other details to simplify the diversification process.

Bestselling author Gene Walden approaches each investment vehicle from the premise that the reader knows little or nothing about it. Focusing on the basics, while asking and answering key questions on how to fit the vehicle into a long-term investment program, he discusses:

- Potential upsides and downsides
- Short-term risks in comparison with stocks
- Long-term returns in comparison with stocks

Carmen Helton:

As a scholar exactly feel bored to help reading. If their teacher questioned them to go to the library or to make summary for some book, they are complained. Just little students that has reading's soul or real their leisure activity. They just do what the professor want, like asked to go to the library. They go to there but nothing reading seriously. Any students feel that reading through is not important, boring along with can't see colorful photos on there. Yeah, it is to get complicated. Book is very important for you personally. As we know that on this period, many ways to get whatever we want. Likewise word says, ways to reach Chinese's country. Therefore , this If Not Stocks, What? can make you experience more interested to read.
