Endgame: The End of the Debt SuperCycle and How It Changes Everything John F. Mauldin, Jonathan Tepper

Praise for *Endgame*

"This is an extremely powerful, sobering, well-written and highly accessible book. It will demonstrate to you why there are no painless solutions to the mounting debt problems around the world—something that too many people are yet to realize. It will take you on a well-documented journey through the debt supercycle, making stops around the world and at critical junctures. And it is a must-read for anyone wishing to understand the global debt dynamics and ways to protect against its bad consequences."

—**Mohamed A. El-Erian**, CEO, PIMCO, and author of *When Markets Collide*

"No one has thought more creatively about the economy. Mauldin's weekly newsletter is a must-read, and his book is even more important if you want to understand a rapidly changing world."

—**Newt Gingrich**, Former Speaker of the House of Representatives

"Successful investors explore all possibilities. You should read this book so you can succeed in case the Endgame is our future."

—**Jim Rogers**, author of *A Gift to My Children*

"I read everything John Mauldin writes. He travels the world and shares his financial stories like a good friend sharing a drink. Mauldin is that rarity—a skeptical optimist—who calls 'em straight and rewards his clients and fans."

—**Rich Karlgaard**, Publisher and Columnist, *Forbes* magazine

"There's clearly something important going on in the world economy. Something big. Something powerful and dangerous. But something as yet undefined and uncertain. We are all feeling our way around in the dark, trying to figure out what it is. John Mauldin must have night vision glasses. He does an excellent job of seeing the obstacles. You should read this book before you knock over a lamp and stumble over the furniture."

—**William Bonner**, President and CEO, Agora Inc., and author of *Dice Have No Memory* and *Empire of Debt*

"Endgame is not only a highly readable and informative account of the causes of the recent global economic and financial meltdown, but it also provides investors with a concrete investment strategy from which they can benefit while this final act in financial history is being played out."

—**Marc Faber**, Managing Director, Marc Faber, Ltd., and Editor, *Gloom, Boom & Doom Report*
