The James Forest (London Mathematical Society Lecture Note Series)

Helga Fetter, Berta Gamboa de Buen

The James Forest (London Mathematical Society Lecture Note Series) Helga Fetter, Berta Gamboa de Buen

The James space J and the James tree space JT were constructed as counterexamples to several outstanding conjectures in Banach space theory. This book is a compendium of most of the known results about these spaces, frequently taken from the original sources, but presented in a unified and up to date fashion.

Generalisations of J and JT are also discussed and other pathological Banach spaces are introduced.

Specialists will welcome this book for its drawing together of classical material and recent results. Graduate students should also find that this book offers an excellent introduction to more advanced topics in Banach space theory.

From reader reviews:

Patricia Nebeker:

The James Forest (London Mathematical Society Lecture Note Series) can be one of your beginning books that are good idea. We recommend that straight away because this publication has good vocabulary that may increase your knowledge in terminology, easy to understand, bit entertaining but nevertheless delivering the information. The author giving his/her effort to get every word into joy arrangement in writing The James Forest (London Mathematical Society Lecture Note Series) although doesn't forget the main stage, giving the reader the hottest and based confirm resource details that maybe you can be one among it. This great information may drawn you into brand new stage of crucial thinking.

Rafael Rainey:

Don't be worry when you are afraid that this book may filled the space in your house, you may have it in e-book way, more simple and reachable. This specific The James Forest (London Mathematical Society Lecture Note Series) can give you a lot of friends because by you considering this one book you have factor that they don't and make a person more like an interesting person. This kind of book can be one of a step for you to get success. This guide offer you information that maybe your friend doesn't realize, by knowing more than other make you to be great people. So , why hesitate? We should have The James Forest (London Mathematical Society Lecture Note Series).

Jose Williams:

Do you like reading a publication? Confuse to looking for your chosen book? Or your book had been rare? Why so many issue for the book? But almost any people feel that they enjoy for reading. Some people likes reading, not only science book but additionally novel and The James Forest (London Mathematical Society Lecture Note Series) or even others sources were given understanding for you. After you know how the good a book, you feel would like to read more and more. Science e-book was created for teacher or perhaps students especially. Those ebooks are helping them to bring their knowledge. In some other case, beside science e-book, any other book likes The James Forest (London Mathematical Society Lecture Note Series) to make your spare time far more colorful. Many types of book like here.

Suzanne Palmer:

Reading a e-book make you to get more knowledge from this. You can take knowledge and information coming from a book. Book is created or printed or highlighted from each source that will filled update of news. In this particular modern era like today, many ways to get information are available for you actually. From media social such as newspaper, magazines, science reserve, encyclopedia, reference book, book and comic. You can add your knowledge by that book. Do you want to spend your spare time to spread out your book? Or just in search of the The James Forest (London Mathematical Society Lecture Note Series) when you necessary it?
