Man has always strived for greater knowledge and understanding regarding his existence and the universe around him. He has relied on science and religion for answers to the intangible mysteries. Hemmed in by the five physical senses and a limited intellect, neither has satisfied. With the multitudinous variety of forms of life around us, and an obvious unevenness in the development of humanity, the fact of evolution in all life cannot be denied. Many have attained to genius; the Great Brotherhood of Light, even beyond that. This book contains the knowledge and wisdom of those who have attained to the highest levels of humankind.
