ONE MAN'S REMARKABLE SEARCH FOR
THE ULTIMATE TRUTHS OF OUR WORLD

For Professor Roger Hart, life truly began after he almost lost his -- in a horrific fall off the slopes of Mount Everest that he miraculously survived. This near-death experience sparked a desire in him to devote his studies to the very nature of human consciousness, in order to unlock the code of reality that binds our world. On an adventure of discovery that would take him around the world, Hart would experience life-altering transcendental events in Tibet, Morocco, and Tierra del Fuego -- opening the door to a true understanding of the nature of man. In this groundbreaking volume, he explores the participation of consciousness in the creation of reality, challenging the traditional scientific view of time, space, and objectivity -- and describing in detail his own metaphysical journey, which has involved synchronicity, precognition, and telekinesis. It is an exploration of the very things that make us human -- and a quest that touches upon the meaning of life itself.
